

Confidence, trust and a forward-looking approach combined with professionalism in all aspects of planning, inspection and production are the hallmarks which over the years have made the company one of the leading turnkey contractors in the area.

The company's foundations are based on trust, close customer relations and partnerships with a number of reliable local subsuppliers as well as a strong and highly competent workforce. This has enabled the company to deliver a large number of individual and distinct quality building projects.

The company has undertaken the refurbishment of a total of 65 railway stations in Jutland for the Danish railway transport provider DSB, but it also specialises in the renovation of historical and listed buildings, combining a natural respect for the original architectural look with contemporary interior design and layout solutions.

● **C.C. Contractor A/S**
bygger på troværdighed og tillid

C.C. Contractor A/S blev etableret i 1971 og er dermed et af de ældste totalentreprisefirmaer i Ringkøbing Amt. Basen har altid været Herning, men store bolig-, idræts- og erhvervsbyggerier overalt i landet bærer firmaets signatur.

Troværdighed, tillid og fremsynethed kombineret med professionalisme i såvel planlægning, tilsyn som produktion er mærkevareren og har gennem årene gjort firmaet til et af områdets absolut førende totalentreprenører.

Den fundamentale basis er tillid, tæt kontakt med kunderne og gode solide lokale underleverandører samt et stærkt medarbejderhold med optimal ekspertise. Derved har firmaet gennem årene kunnet levere en lang række individuelle og markante kvalitetsbyggerier.

Firmaet har for DSB udført renoveringen af 65 stationer i Jylland, men renoverer også historiske og bevaringsværdige huse, hvor man kombinerer respekten for det oprindelige arkitektoniske udtryk med en tidssvarende indretning.

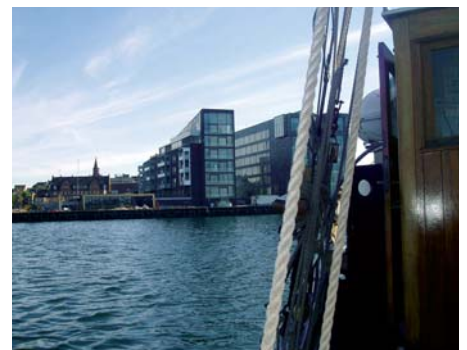

C.C. Contractor A/S har et stort antal kerne- og tillidskunder, såsom Messecenter Herning, Skandinavisk Motor Company A/S, mange dagligvarekæder samt flere boligforeninger.

"Vi hylder det gode jyske princip om, at et ord er et ord", siger firmaets ejer Laurits Pedersen – og det har givet resultat.

● **C.C. Contractor A/S**
builds on confidence and trust

C.C. Contractor A/S was established in 1971, making the limited company one of the oldest turnkey contractors in the County of Ringkøbing. The company has always been based in Herning, but large-scale residential properties, sports complexes and commercial development projects throughout Denmark bear the company's signature.

C.C. Contractor A/S works for a large number of loyal core customers, including Exhibition Centre Herning, Skandinavisk Motor Company A/S, many supermarket chains and several housing associations.

"We go along with the good old principle that one's word is one's bond," says the company's owner Laurits Pedersen, and this has borne fruit.
