

## ● Kildebjerg Ry passer os perfekt

En unik vision, en central beliggenhed og naturskønne omgivelser. Det er årsagerne til, at kompetenceudviklingshuset eVisions Group har valgt at flytte til erhvervsområdet Kildebjerg Ry, der ligger 25 minutters kørsel vest for Århus.

"Kombinationen af videnvirksomheder, boliger og god infrastruktur passer os perfekt. Samtidig skaber de naturskønne omgivelser tæt på Århus en attraktiv ramme for både medarbejdere og kunder," siger innovationschef Søren Johansen fra eVisions Group.

## Tæt på vidensmiljøet i Århus

Kildebjerg Ry er det første erhvervsområde i Danmark, der kombinerer videnvirksomheder, boliger, natur og golfbane. Og eVisions Group er ikke den eneste virksomhed, der har fattet interesse for det nyskabende område.

"Vi oplever en stor interesse for at flytte hertil. Udover den unikke vision skyldes interessen især, at vidensmiljøet i Århus ligger lige i nærheden, hvilket gør det let for virksomhederne at tiltrække og fastholde højtuddannede medarbejdere," vurderer direktør Jens Mastrup fra udviklingselskabet Kildebjerg Ry A/S.

## Stort udvalg af erhvervsgrunde

Dertil kommer, at Kildebjerg Ry med et alsidigt udvalg af store og små erhvervsgrunde er perfekt til videnvirksomheder og udviklingsafdelinger i alle størrelser.

"Lokalplanen giver plads til både store virksomheder med behov for synlige domiciler og mindre firmaer og udviklingsafdelinger. Der er også mulighed for at bo i et kontorfællesskab – et såkaldt Company House – sammen med andre firmaer, hvilket skaber rammerne for en optimal videndeling," siger Jens Mastrup.

Det attraktive erhvervsområde giver desuden oplagte muligheder for Company Days, hvor virksomhederne kan tage kunder, leverandører eller medarbejdere med en tur på golfbanen.

## ● Kildebjerg Ry suits us perfectly

A unique vision, a central location and surrounded by stunning countryside. These are the reasons why the eVisions Group, a competence development company, decided to relocate to the Kildebjerg Ry business park, which is situated a mere 25-minute drive west of Aarhus.

"The combination of knowledge enterprises, residential units and a good infrastructure is perfect for us. At the same time, the beautiful countryside so close to Aarhus is attractive for employees as well as customers", says Søren Johansen, Innovation Manager of the eVisions Group.

## Close to the knowledge centre in Aarhus

Kildebjerg Ry is the first business park in Denmark to combine knowledge enterprises, residential units, countryside and a golf course. And the eVisions Group is not the only one to have felt drawn to this innovative concept.

"We are getting lots of enquiries from interested businesses. In addition to the unique vision behind Kildebjerg Ry, the business park is attracting particular interest due to its closeness to the knowledge centre in Aarhus. This makes it easier for enterprises to attract and retain highly qualified employees", says Jens Mastrup, CEO of the development company Kildebjerg Ry A/S.

## Wide selection of plots for business purposes

Moreover, Kildebjerg Ry has a wide range of small and large plots which are perfect for all sizes of knowledge enterprises and development departments.

"The district plan allocates space for large enterprises which need prominent domiciles as well as for smaller businesses and development departments. It is also possible to share office premises with other enterprises in a so-called Company House, thereby creating a framework for optimum knowledge sharing," says Jens Mastrup.

The attractive business park is also a perfect venue for company days as businesses can invite customers, suppliers and employees for a day on the golf course.
